POST-GRADUATE EXPERIENCE

CARTER LAB | Research Scholar

September 2023 – Present | Center for Neural Science, New York University

DEPARTMENT OF COGNITIVE NEUROBIOLOGY | PhD student

May 2017 – September 2022 | Center for Brain Research, Vienna

POST-GRADUATE EDUCATION

DOCTORAL

PhD Neuroscience N094

September 2017 - July 2023 | Medical University Vienna, Vienna

Thesis: Hippocampal circuits for multiple gamma oscillations

Thesis Supervisor: Dr. Balint Lasztoczi

PRE-GRADUATE EDUCATION

GRADUATE

MSc. Molecular Biosciences (Major Neuroscience)

September 2013 – April 2016 | Heidelberg University, Heidelberg

Thesis: Neural encoding of thermal and tactile information in the somatosensory cortex of the mouse

Thesis supervisor: Prof. Daniel Durstewitz, Dr. Claudio Sebastian Quiroga-Lombard

UNDERGRADUATE

BSc. Biowissenschaften (Biosciences)

September 2010 – July 2013 | Heidelberg University, Heidelberg

Thesis: Electrophysiological characterization of the olfactory system in OMP-ChR2-mice

Thesis supervisor: Prof. Stephan Frings

FIRST AUTHOR PUBLICATIONS

Sakalar, E., Klausberger, T. & Lasztoczi, B. (2022). **Neurogliaform cells dynamically decouple neuronal synchrony between brain areas.** *Science*. 10.1126/science.abo3355

AWARDS

SFN TRAVEL GRANT FOR FENS CONFERENCE 2024 June 2024 | FENS 2024 Vienna

Travel grant from Society for Neuroscience to attend the FENS Conference 2024. 2500\$

RESEARCHER OF THE MONTH September 2023 | Medical University of Vienna

Recognition of successful scientists at the Medical University of Vienna

CONSTANTIN VON ECONOMO AWARD IN BRAIN RESEARCH 2022 | Center for Brain Research, Vienna

Recognition of an outstanding research article published by an early career researcher in a peer-reviewed journal. 1000€

SCHOLARSHIP 2010 - 2016 | Germany

Full Scholarship during Bachelor and Master. 850€/month

SCHOLARSHIP 2006 - 2010 | German High School, Istanbul

Full Scholarship during High School. 10.000€/year

POSTER PRESENTATIONS

FENS 2022 April 2022 | FENS Forum

Pathway specific regulation of convergent information streams by hippocampal neurogliaform cells

FENS 2020 June 2020 | FENS Forum

Neurogliaform cells regulate the cortico-hippocampal communication in the CA1 (online)

YSA 2019 June 2019 | YSA Vienna

Firing patterns of GABAergic neurons during gamma oscillations in area CA1 of the mouse hippocampus

VOLUNTEER EXPERIENCE

OKUL DESTEK DERNEGI | Volunteer teacher

September 2013 - Present

Teaching science at the middle school level to underrepresented children in Turkey

PRE-GRADUATE EXPERIENCE

THEORETICAL NEUROSCIENCE GROUP OF PROF. DURSTEWITZ | Master Student

September 2014 – March 2016 | Zentralinstitut für Seelische Gesundheit, Mannheim

Neural encoding of thermal and tactile information in the somatosensory cortex of the mouse.

MOLECULAR NEUROBIOLOGY GROUP OF DR. SPRENGEL | Intern

April 2014 – May 2014 | Max Planck Institute for Medical Research, Heidelberg

The role of precise excitatory neurotransmission in learning and memory.

SYNAPSE FORMATION GROUP OF DR. HERBST | Intern

March 2014 – April 2014 | Center for Brain Research, Vienna

Molecular mechanisms that regulate the formation and maintenance of the neuromuscular synapse.

GROUP OF PROF. FRINGS | Bachelor Student

March 2013 – June 2013 | Heidelberg University, Heidelberg

Signal processing in the olfactory system.

SENSELAB OF DR. ARZU ÇELİK | Intern

August 2012 – September 2012 | Bogazici University, Istanbul

Developmental neurobiology of the fly visual and the zebrafish olfactory system.

CERTIFICATES

Computational Neuroscience by University of Washington on Coursera.

Certificate earned on October 15, 2020

Machine Learning by Stanford University on Coursera.

Certificate earned on September 28, 2016

SKILLS

MATLAB

Python

Electrophysiology

Linux

ImageJ
